Top+health

TOPHEALTH REVOLUTIONISES WATER IN THE WORKPLACE, ELEVATING STILL AND SPARKLING FILTERED WATER BY MICRODOSING IT WITH VITAMINS, MINERALS AND ELECTROLYTES. GOOD HEALTH, ON TAP, ANYTIME.

HEALTH AND WELLNESS.

Vitamins B+C plus essential minerals and electrolytes, helping workers to hit recommended amounts for optimal performance.

CUSTOMISE STRENGTH AND FLAVOUR

Four fragrant, all-natural flavours – lemon, raspberry, pink grape and lemon and lime – available in multiple strengths. Non-flavoured/enhanced water is also an option.

ZERO SUGAR AND CALORIE-FREE

Sugar and calorie-free, with a gentle sparkling carbonation to aid digestion.

LESS WASTE

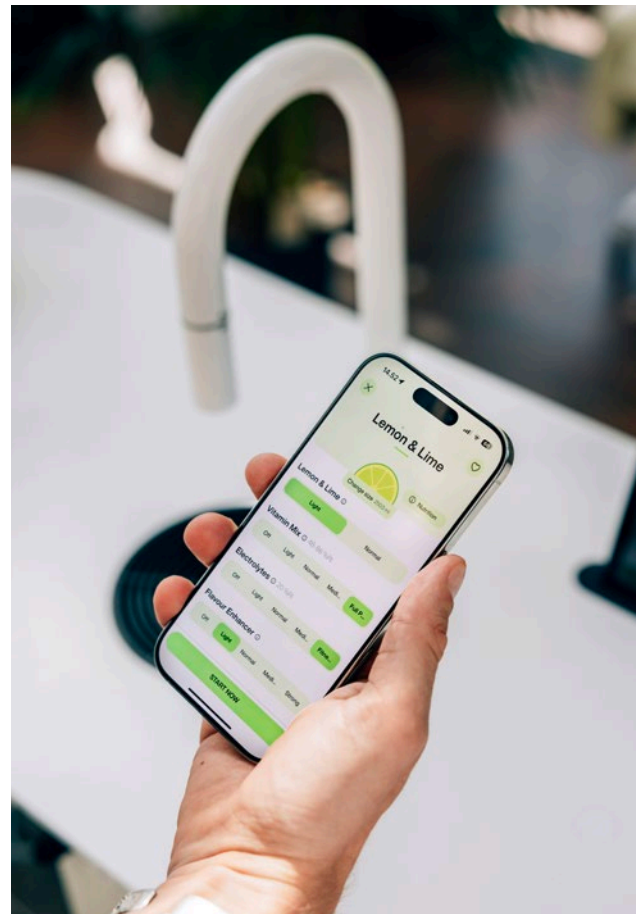

The easiest and tastiest way to reduce single use plastic water bottles in the workplace.

TRACK WATER AND NUTRIENTS

Track water and nutrient consumption through the TopHealth app on any smartphone, which sends notifications when running low or over.

TOUCHLESS TECHNOLOGY

Easy personalisation and full customer control.

SMART, SUSTAINABLE SOLUTIONS

Scanomat's TopBrewer, TopHealth and TopWater units are designed with sustainability in mind, helping workplaces to reduce waste, energy and environmental impact.

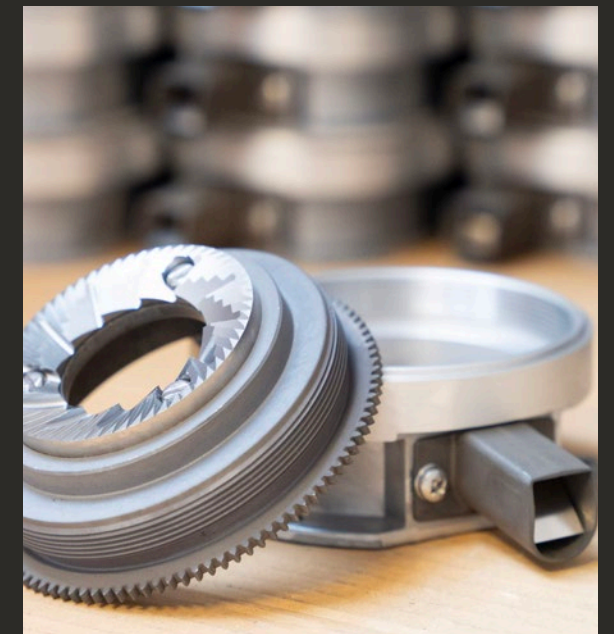

ALL UNITS ARE SUSTAINABLY BUILT FROM 80% RECYCLED STEEL AND ALUMINIUM.

TopBrewer minimises over-consumption and water/energy use with precision brewing and portion control.

TopHealth offers filtered, vitamin-enhanced water, reducing plastic waste from single use bottles and supporting wellbeing.

TopWater provides premium filtered water on demand, cutting the need for bottled water and transport emissions.

ETHICALLY SOURCED AND HANDPICKED COFFEE

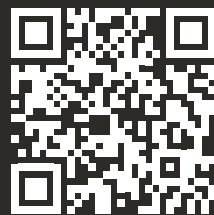

Scanomat TopBrewer is paired exclusively with Amokka®, a coffee roastery focused on clarity, balance and traceability. At Amokka®, beans are directly purchased from carefully chosen partner farms worldwide to guarantee quality and ethical practice, and are freshly roasted here in Australia for the local market. Purchasing above market value ensures farmers are supported through projects like agricultural equipment, earthquake relief and school resources.

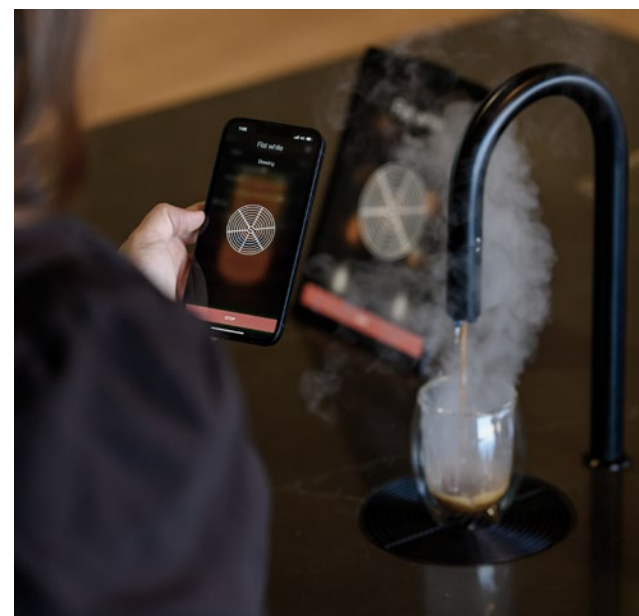

CASE STUDY

CHEVRON

Location:	Perth
Design:	Gensler
Installed:	2022
Machines:	40 TopBrewer machines, 72 TopWater machines
Employees:	1500

case studies

When Arup expanded its operations in Perth, the company had some clear objectives. Firstly, Arup wanted consistency in service providers across their national offices. They also aimed to achieve Well Platinum certification and to 'level-up' their workplace experience. Two Scanomat TopBrewer machines were installed, one with sparkling water, on two separate levels. The team at Arup has reported that operations are running smoothly, productivity is up and there has been more engagement around hydration points.

ABOUT SCANOMAT

IN 1981, SCANOMAT
CEO KIM VIBE-PETERSEN
DESIGNED THE WORLD'S
FIRST FULLY AUTOMATIC
CAPPUCCINO MACHINE.

Over 40 years later, the brand is renowned the world over for its innovative, high-quality solutions and flagship TopBrewer machine, which has changed the game in automatic coffee with its under-counter design, stylish swan-neck tap and app-control technology.

In Australia, Scanomat is distributed and serviced exclusively through BrewHub Australia.
